FRONT-END DEVELOPER

I'm a curious and hands-on **Frontend Developer** who loves turning ideas into engaging, user-friendly web experiences. Focused on simplicity and usability, I enjoy learning new tools, refining small details, and writing clean, efficient code that brings designs to life.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, HTML5, CSS3

Frameworks/Libraries: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Framer Motion, Swiper.js, Slider.js

CMS & Tools: WordPress, Elementor, WooCommerce, WPBakery.

Platforms: Vercel, GitHub, MySQL, Figma, VS Code, Trello, Slack.

Soft Skills: Problem-solving, adaptability, teamwork, communication.

WORK EXPERIENCE

Frontend Developer | [Appycodes](#)

Mar 2023 – Apr 2024

- **Developed and integrated a route optimization feature** for a delivery web app using **REST APIs**, improving delivery efficiency and automating logistics.
 - **Built and maintained responsive web applications** with **JavaScript** and **WordPress**, ensuring consistent performance across multiple devices.
 - Collaborated with designers and backend teams to implement **UI/UX enhancements**, **optimize performance**, and **fix cross-browser issues**.
 - Enhanced course platform interfaces, improving **user engagement and accessibility** for diverse learning experiences.
 - **Adopted component-based design** principles and modular architecture for scalable and cleaner codebases.
-

PROJECTS

FilmyGPT | [GitHub](#)

Built an **AI-powered** movie search app using **React**, **OpenAI API**, and **Firebase Auth**, deployed via **Vercel**. Features **dark/light themes**, **natural language search**, and **secure login functionality**.

Elementor Site Clone | [GitHub](#)

Recreated an Elementor-style **responsive website** clone using **HTML**, **CSS**, and **JavaScript**, with **Swiper.js** for **slide animations** and **smooth transitions**.

PROFESSIONAL DEVELOPMENT

Apr 2024 – Present

Focused on strengthening knowledge in **JavaScript**, **React**, **Next.js**, and Computer Fundamentals, such as **data structures**, **operating systems**, and **networking** basics.

Built personal projects to improve **problem-solving**, **DOM manipulation**, and **UI performance optimization** skills.

EDUCATION

B.Tech – Computer Science & Engineering

[Surendra Institute of Engineering & Management, Siliguri](#) | **CGPA: 9.4**

Diploma – Computer Science & Technology

[Darjeeling Polytechnic Institute, Kurseong](#) | **CGPA: 8.1**
